

2025 SURGICAL OUTCOMES

At the UPMC Children's Hospital of Pittsburgh's Heart Institute, our exceptional outcomes are the result of expertise, innovation, and a commitment to providing the highest level of care for every patient. Bringing together nationally recognized specialists in cardiac surgery, cardiology, cardiac imaging, and heart transplantation, our multidisciplinary team delivers comprehensive care for children and adults with congenital and acquired heart disease. Through collaborative care, advanced therapies, and a focus on quality, we continue to achieve outcomes that rank among the nation's best and earn recognition from leading organizations, including the Society of Thoracic Surgeons (STS) and *U.S. News & World Report*. The following report highlights our 2025 outcomes and our ongoing commitment to advancing the future of pediatric heart care.

Benchmark Procedure	UPMC Children's Hospital of Pittsburgh Mortality Percentage	STS Overall Performance Mortality Percentage (IQR)
Off Bypass Coarctation	0%	1.18% (0-2.67)
VSD	0%	0.34 (0-0.61)
TOF	0%	0.74 (0-0.95)
AVC	0%	2.27 (0-3.45)
ASO	0%	1.76 (0-3.70)
ASO+VSD	0%	4.45% (0-6.67)
Glenn/Hemi-Fontan	0%	1.29% (0-2.26)
Fontan	2.44%	0.96% (0-1.82)
Truncus	0%	6.24% (0-10)
Norwood	12.12%	13.03% (7.14-15.87)
