

UPMC | CHILDREN'S
HOSPITAL OF PITTSBURGH

Summer Research Internship Program 2023

The UPMC Children's Hospital of Pittsburgh Rangos Research Center serves as the hub of pediatric research in Pittsburgh and is one of the fastest growing pediatric research programs in the United States. Whether advancing immunosuppressant management to wean transplant patients from anti-rejection drugs or seeking a cure for juvenile diabetes, Children's Hospital of Pittsburgh is expanding the research frontier with new and innovative therapies for the cure of childhood disease and disability.

Under the direction of Drs. Sunder Sims-Lucas and Michelle Mani, Children's Hospital of Pittsburgh offers an eight-week paid summer internship program designed for undergraduate students from any college or university who wish to learn the rationale, design strategies, methods and other aspects of biomedical research by engaging in studies related to the pediatric research under the direct supervision of experienced researchers.

Program Eligibility:

- ✓ U.S. citizen or a permanent resident (green card holder)
- ✓ Students must be enrolled in a degree-granting program at a college/university
- ✓ Cumulative GPA of 3.0 or higher
- ✓ Have completed at least two semesters of undergraduate education
- ✓ Have at least one semester of undergraduate education remaining after completing the CHP program or documentation of acceptance into an advanced degree program for fall 2023

Applications for the 2023 program will be available on-line at www.chp.edu on October 15, 2022. Credentials from all eligible participants are reviewed by the mentors through the selection process. Selected participants are notified in February 2023 of their acceptance into the program. The 2023 program will commence in June and conclude at the end of July with the annual "Poster Day" forum. Participants are expected to complete the 8-week program working 40 hours per week and will receive compensation of approximately \$4,000. Housing is not provided with this program. All interested participants may contact the directors for additional information.
