

UPMC HARRISBURG

CARDIAC SURGERY

Outcomes and Highlights

UPMC | HEART AND
VASCULAR INSTITUTE

A photograph of four male physicians standing in front of Brady Hall at UPMC. The building is a multi-story structure with a brick base and a stone upper section. A purple sign on the left reads 'UPMC BRADY MEDICAL BUILDING' and '205 S. Front St.'. The physicians are dressed in professional attire: three in dark suits and one in a brown tweed suit. They are all smiling and looking towards the camera. The background shows the entrance to the building with glass doors and windows, some of which have 'UPMC' logos.

WHY CHOOSE UPMC FOR YOUR PATIENT'S HEART CARE?

As one of the largest and most experienced cardiovascular programs in the region, our team at the UPMC Heart and Vascular Institute is home to experts in all areas of cardiovascular care, including cardiac surgery and structural heart experts. Our combined experience, leading-edge technology, and collaborative approach allow us to provide our patients with access to the most advanced treatment options, including innovative clinical trials. We achieve outstanding clinical outcomes and milestones that have awarded our program top recognition by prestigious national forums, such as a three-star rating, the highest rating possible, from The Society of Thoracic Surgeons (STS) in three out of five total categories for patient care.

REFER A PATIENT

We are available to discuss your patient's case and will collaborate with you to determine the best treatment plan. Our team maintains open communication throughout each stage of the referral process.

When you refer a patient to the UPMC Heart and Vascular Institute, they will receive:

- Thorough evaluation and treatment with our experienced team of nurses, APPs, and physicians.
- Personalized care with insight from cardiac surgeons, cardiovascular imaging specialists, structural interventional cardiologists, and APPs.
- Access to the latest advances in cardiovascular care, including new devices through clinical trials.
- A dedicated team to answer questions, efficiently schedule individualized testing, and provide a streamlined coordination of care.

To contact our program, or refer a patient, call [717-231-8555](tel:717-231-8555).
