

About the UPMC Heart and Vascular Institute

UPMC Heart and Vascular Institute is a nationally recognized Center of Excellence for cardiovascular care. As the largest integrated cardiovascular provider in Pennsylvania, our team offers expert care for patients.

At UPMC, we utilize the latest technology, conduct cutting-edge research, and participate in clinical trials to give patients access to treatments that may not be available at other hospitals.

Advanced imaging services and cardiac diagnostic testing are available at several of our community hospital and outpatient locations. We are committed to partnering with other providers to increase access to high-quality care and the latest treatments, therapies, and technologies for your patients.

Partnering with Referring Physicians

As part of our commitment to building and strengthening relationships with referring physicians, our team will partner with you to develop an individualized treatment plan for your patient. We will work with you to present treatment options, identify benefits and risks, and make a unified recommendation based on your patient's needs, regardless of their location.

“The UPMC Heart and Vascular Institute works to provide innovative cardiac care of the highest quality to patients throughout the UPMC system. We are proud of the dedication displayed by our physicians and staff and their commitment to our patients.”

Victor Morell, MD

Executive Director
UPMC Heart and Vascular Institute
