### Quick Tips For Having A Successful Virtual Day

1. Choose a quiet space.
2. Check your internet connection to ensure you have a strong signal.
3. Consider using a headset.
4. Test your audio and lighting ahead of the events.
5. Review the [overview of Microsoft Teams](#) so that you are prepared to interact during the sessions.
6. If you are not actively speaking, be sure to mute your microphone. If there is any disruptive sound coming from your mic, the coordinators may mute you. If you do need to speak, you can unmute your mic by clicking on the microphone icon.
7. During breaks, turn off your video and take a few moments to stand up and stretch.
