

# The region's most comprehensive breast cancer care is only at UPMC.

As the home of western Pa.'s only NCI-designated Comprehensive Cancer Center and the pioneers of 3D mammography, UPMC offers access to more breast cancer experts and clinical trials than any center in the region. From genetic testing and risk assessment to innovative surgical approaches and immunotherapies, experts at our renowned UPMC Hillman Cancer Center and UPMC Magee-Womens are transforming breast cancer care every day.

IN EBENSBURG**  
Wed., Oct. 11, 9 a.m. to 3 p.m.

**UPMC BEDFORD**  
Tues., Oct. 24, 9 a.m. to 2 p.m.

*Women age 40 and over who are eligible through their insurance for a screening mammogram, and who do not already have an upcoming scheduled mammogram, can receive one without an appointment. A doctor's order is not needed, but we do ask that you designate a doctor at the time of screening to receive and interpret your results (if you do not have a doctor, we can help you find one). Your health insurance will be billed for this screening. Women without health insurance are welcome, and assistance may be provided to cover the cost of screening.*
