

A GUIDE TO

Your Hospital Stay

WELCOME LETTER FROM TRACY GATES, PRESIDENT

Welcome to UPMC Chautauqua and thank you for trusting us with your care.

At UPMC Chautauqua, we know that quality is more than state-of-the-art clinical services and advanced technology – quality is treating our patients with care and compassion, listening to their ideas, and using their feedback to improve our services. We also know that hospital stays can be stressful, so we have developed a few ways to help you feel as comfortable as possible.

During your stay, you can expect to be visited by a nurse leader, who manages all staff members on your unit. We call this **nurse leader rounding**. This visit will take less than 5 minutes and helps us be sure that your care needs are being met. You will also see our nurses doing **bedside shift report**, which is when the nurse going off duty meets with you, your support person(s), and the nurse going on duty who will start taking care of you. Please use these opportunities to ask questions and share any concerns or suggestions you may have.

You will also see a white board in your room called the **communication board**, which is a tool we use to help keep you updated on the important details of your care during your stay. This will list things such as your room number, diet, activities, upcoming tests, and the names of your care team members.

Your feedback is important to us as it guides how we care for our patients. **Nurse leader rounds, bedside shift report, and communication boards** are ways for you to tell us about your needs and share any concerns you may have about your care.

After you leave the hospital, **you may receive a survey through mail or email** that will ask you questions about your stay. I would like to personally request that you please take a few moments to complete this survey to let us know how we did. Your input is very important in our efforts to give our patients and support persons the best possible experience.

I want to personally thank you for choosing UPMC Chautauqua and for your input so we can continuously improve the services we provide.

Sincerely,

Tracy Gates
President, UPMC Chautauqua

TIPS FOR YOUR HEALTH AND SAFETY IN THE HOSPITAL

- **Talk to your health care team.** Feel free to ask questions or have something explained if you do not understand. We encourage you to take notes and include your support person(s) to help you make important decisions.
- **Know your medicines.** Do not take any of your personal medicines unless your doctor or nurse tells you it is okay. You should give them to someone to hold for you. Before you leave, you should know the names of your medicines, the reason you need to take them, and possible side effects.
- **Control your pain.** We want you to be as comfortable as possible. Let us know as soon as you start to feel pain. If you get pain relief before the pain becomes bad, it takes less medicine to make you feel better.
- **Get your rest.** Rest is an important part of the healing process. Earplugs are available to help reduce noise. Please ask a member of your care team.
- **Prevent infections.** The most important step in preventing the spread of germs and infection is **handwashing**. When washing, rub your hands together vigorously. It's OK to ask anyone who enters your room if they have washed their hands! Try not to touch medical devices and minimize clutter in your room so surfaces can be cleaned.
- **Be a partner in your care.** Devices that go inside your body, such as a catheter in your bladder or an IV in your arm or neck, may be a source of infection if left in longer than necessary. It's OK to ask a care team member when they can be removed.
- **Be aware of fall risks.** There are many reasons people feel unsteady when getting out of bed or walking by themselves. As needed, ask for help before getting up. Non-slip socks are also available. Ask your nurse. If you are at a greater risk for a fall, you will be given a yellow wristband as a visual safety precaution.
- **Stay active.** An important part of feeling better is getting out of bed and moving. Talk with your care team about safely getting out of bed.
- **Protect yourself and others by not smoking.** Smoking is not allowed on UPMC property. This includes hospitals, facilities, and grounds, including parking lots, garages, and other outdoor locations such as UPMC-owned sidewalks.

UPMC reserves the right to prohibit, for any reason, personal photography or video or audio recording by a patient, a patient's family member, or a patient's visitor. Photographing or filming the birth of a baby may be permitted, subject to appropriate limitations, when all parties have given their consent.

Patient Responsibilities

The healthcare providers of UPMC are committed to working with patients to deliver excellent patient care. UPMC asks that patients work with them to meet the goals related to care and treatment. Patients are asked to assume the following responsibilities:

1. **Provide a complete health history.** Provide information about past illnesses, hospital stays and outpatient services, medicines and supplements, the names of your doctors, and other matters related to your health history. Please tell us about any condition that might cause you to require different treatment or additional help such as allergies or a healing problem.
2. **Participate in your treatment and services.** Cooperate with our staff. Ask questions if you do not understand directions or procedures. You are responsible for your actions if you refuse treatments or don’t follow treatment directions. You will achieve the best outcome if you work together with your treatment team to develop a care plan for your time in the hospital, after you leave, or during your outpatient services.
3. **Communicate with our staff.** Let your team members know about any changes in your symptoms or conditions. If you already have an Advance Directive, Durable POA, Living Will or organ/tissue donation directive, please provide us with a copy. We encourage you to ask questions and to be an active member of your care team. Please be sure your doctor knows what side or site of your body will be treated or operated on before any procedure. We encourage you to insist staff cleanse their hands before treating you. Please ask our staff to identify themselves before treating you, and remind them to check your identification before treatments or medicines are given. Let our staff know if you have

any questions or problems or if anything upsets or concerns you. Contact your service location Director or the Patient Relations Representative/Advocate immediately if you have concerns so that we can assist you.

4. **Appoint a health care representative.** UPMC encourages all patients to appoint a health care representative to serve as a medical decision-maker. This should be someone from your family or support network who can make decisions for you if you become unable to do so. If you do not appoint a health care representative and become unable to appoint one, UPMC will select one for you in accordance with Pennsylvania law. UPMC staff are available to help patients and their families appoint health care representatives and establish a Power of Attorney for Medical Decision-Making.
5. **Comply with your doctor's or doctors' medication treatment plan for this hospital stay or encounter.** Provide a complete list of medications, (prescribed, over the counter, or otherwise) that you are taking. Refrain from using illicit drugs or any medication or supplement not ordered by your doctor during this hospital stay or outpatient encounter. Do not take drugs without the knowledge and approval of UPMC staff. These may complicate your care and interfere with the healing process. UPMC reserves the right to search patient rooms and belongings and to remove medications or supplements not prescribed by your doctor, as well as weapons, or illegal substance, or other items considered unsafe for the care environment.
6. **Comply with UPMC's smoke-free policy.** UPMC maintains a smoke-free environment to protect the health of patients, visitors, and staff. Smoking is not permitted on any UPMC property, including buildings, parking lots, and parking garages. You may not smoke in vehicles while on UPMC property. UPMC can provide you with information and strategies to help you quit smoking. If interested, please contact your nurse or team member.
7. **Comply with visitation policies.** Our service locations have visitation policies to ensure a safe, comfortable, and quiet environment for our patients. You are expected to comply with each service location's policy and can obtain a copy of it from your nurse or team member.
8. **Be courteous to patients and staff.** UPMC strives to maintain an atmosphere that promotes healing. You and your visitors are expected to be considerate of other patients and staff members, control your noise level, limit the number of visitors in your room, manage the behavior of your visitors and your visitor's noise level, and respect UPMC property. Your visitors are expected to comply with all service location policies, including isolation policies. Failure to comply may result in being asked to leave. UPMC does not tolerate threatening or harassing behavior nor illegal activity.

We may move you to another room or another unit based on your needs and the needs of our patients. You are responsible to cooperate with all room assignments. We cannot guarantee a private room to any patient.
10. **Accept your physician, nurse, clinician, and other caregiver assignments.** If you have a concern about a caregiver, please notify your service facility Director or Patient Relations Representative/Advocate. We will review your concern within the appropriate department and make any necessary reassignments.
11. **Protect your belongings.** You are responsible for the safety of your belongings during your hospital stay or outpatient encounter. UPMC is not responsible for any lost or stolen patient belongings. We encourage you to send valuables and medications home or to store them with hospital security if you are admitted to the hospital.
12. **Arrange transportation home.** You are responsible to arrange your own transportation home from the hospital and may be responsible to pay some or all of the costs related to your transportation, unless other arrangements have been made with you. We will arrange transportation for you if you are transferred to another facility or have medical needs for special transportation. These services may or may not be paid for by your insurance depending on your coverage and clinical circumstances.
13. **Make payments for services.** You are responsible for payment of all services provided to you by UPMC. Payments may be made through third-party payers (such as your insurance company), by self-payment, or by making other payment arrangements for services not covered by insurance. UPMC will not withhold or delay emergency medical screening or stabilizing treatment that is provided pursuant to Emergency Medical Treatment and Active Labor Act (EMTALA).
14. **Keep your appointments.** You are responsible to make and keep your outpatient appointments. Your services have been planned with you to maximize your health and wellness by following up on your health care needs including periodic screening, assessment, and treatment. We ask that you respect the appointments that have been scheduled for you and notify us as soon as possible if for some reason you are unable to keep a scheduled appointment. Please plan with us in advance, if there are situations that may cause you to have difficulty in keeping an appointment.
