

**UPMC Jameson School of Radiography
Curriculum Plan**

First Semester

Radiographic Fundamentals
Computers in Radiologic Sciences
Medical Terminology I
Patient Care & Communications I
Ethics and Law in Radiography
Radiographic Anatomy I
Radiographic Physiology I
Radiographic Procedures I
Radiographic Pathology I
Radiographic Imaging & Exposure I
Radiographic Image Analysis I
Radiographic Protection/Safety and Biology I
Lab
Clinical Education I

Second Semester

Medical Terminology II
Patient Care & Communications II
Radiographic Anatomy II
Radiographic Physiology II
Radiographic Procedures II
Radiographic Pathology II
Radiographic Imaging & Exposure II
Radiographic Image Analysis II
Radiographic Protection/Safety and Biology II
Registry Review I
Lab
Clinical Education II

Third Semester

Medical Terminology III
Radiation Physics I
Radiographic Anatomy III
Radiographic Physiology III
Radiographic Procedures III
Radiographic Pathology III
Radiographic Imaging & Exposure III
Radiographic Image Analysis III

Radiographic Protection/Safety and Biology III
Registry Review II
Lab
Clinical Education III

Fourth Semester

Medical Terminology IV
Radiation Physics II
Radiographic Anatomy IV
Radiographic Physiology IV
Radiographic Procedures IV
Radiographic Pathology IV
Radiographic Imaging & Exposure IV
Radiographic Image Analysis IV
Imaging Equipment
Registry Review III
Lab
Clinical Education IV

Reviewed 07/02/24
