

Our Mission and Vision

Our Mission

UPMC's mission is to serve our community by providing outstanding patient care and to shape tomorrow's health system through clinical and technological innovation, research, and education.

Our Vision

UPMC will lead the transformation of health care. The UPMC model will be nationally recognized for redefining health care by:

- Putting our patients, health plan members, employees, and community at the center of everything we do and creating a model that ensures that every patient gets the right care, in the right way, at the right time, every time.
- Harnessing our integrated capabilities to deliver both superb state-of-the-art care to our patients and high value to our stakeholders
- Employing our partnership with the University of Pittsburgh to advance the understanding of disease, its prevention, treatment, and cure.
- Serving the underserved and disadvantaged, and advancing excellence and innovation throughout health care.
- Fueling the development of new businesses globally that are consistent with our mission as an ongoing catalyst and driver of economic development for the benefit of the residents of the region.

Our Values

Quality and safety

We create a safe environment where quality is our guiding principle.

Dignity and respect

We treat all individuals with dignity and respect.

Caring and listening

We listen to and care for our patients, our health plan members, our fellow employees, our physicians, and our community.

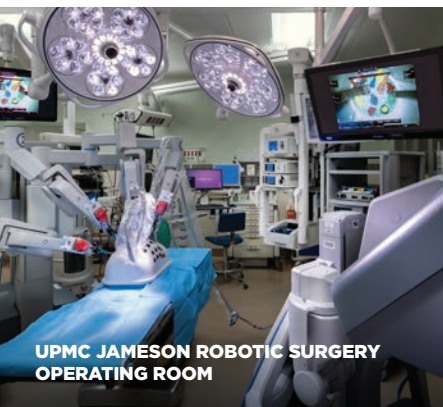

Responsibility and integrity

We perform our work with the highest levels of responsibility and integrity.

Excellence and innovation

We think creatively and build excellence into everything that we do.

Minimally Invasive and Robotic Surgery

Imaging Services

Our Signature Services

UPMC Heart and Vascular Institute

UPMC Heart and Vascular Institute at UPMC Jameson offers comprehensive cardiovascular services from advanced diagnostic testing to angioplasty, stenting procedures, and heart attack treatment. Our team of experts includes cardiologists, interventional cardiologists, and vascular surgeons. Heart and vascular services include testing and rehabilitation, heart catheterization, and vascular services and vein care.

Imaging

UPMC Jameson offers an array of imaging services, from routine x-rays to computed tomography (CT) scans, ultrasound, magnetic resonance imaging (MRI) and nuclear medicine. The hospital has received the American College of Radiology (ACR) gold seal of accreditation for ultrasound, MRI, nuclear medicine, digital and 3D mammography, and CT. Imaging services are available at our main hospital in New Castle as well as several satellite locations throughout the community, including UPMC Magee-Womens Imaging at Nesbitt Place in Neshannock Township. UPMC Magee-Womens Imaging offers breast imaging and biopsies read by radiologists who specialize in breast imaging.

Orthopaedics

Exceptional orthopaedic surgery is close to home. UPMC Jameson provides access to board-certified orthopaedic surgeons, an experienced surgical staff, state-of-the-art surgical facilities, and a medical-surgical unit designed to meet

the needs of patients recovering from orthopaedic surgery. Our services include general orthopaedic surgery, total hip and knee replacements, arthroscopic surgery of the knee and shoulder, hand and upper extremity surgery, and fracture care.

Primary Care Network

Sometimes, choosing the right primary care provider (PCP) can be challenging. At UPMC Jameson, we provide access to a range of primary care services to help make the decision easier. Our PCPs offer care to patients of all ages in several convenient locations.

Surgery

Precision and technical expertise by skilled surgeons, access to the latest minimally-invasive technology, and postsurgical care provided by a compassionate staff are what make UPMC Jameson a destination for surgery in our region. UPMC Jameson offers both same-day (outpatient) surgery as well as inpatient surgery. As surgical procedures advance with minimally-invasive technology, the number of outpatient surgical procedures continues to grow. Our outpatient surgery staff includes highly skilled, specialty-trained surgical registered nurses and assistants who work closely with your surgeon and anesthesia team. Surgical specialties at UPMC Jameson include but are not limited to general, vascular, and bariatric surgery. Minimally invasive surgery with the robotic-assisted da Vinci® System is

also available for some general, gynecologic, and urologic procedures.

Diabetes Management Program

Gain control of your diabetes with guidance from a team of professionals who will educate and support you to succeed at living well. Our program, which is recognized by the American Diabetes Association, includes a certified diabetes educator who works closely with a professional staff, medical nutrition therapy offered by a registered nurse, comprehensive self-management skills, support groups, guest speakers, and more.

UPMC Outpatient Center at Westgate Plaza

Located in Union Township, UPMC Outpatient Center at Westgate Plaza houses services including primary care and specialty services, and a telemedicine clinic.

Wound Care

The UPMC Center for Wound Healing at UPMC Jameson provides treatment options for nonhealing wounds, including hyperbaric oxygen therapy. Our multi-disciplinary team includes wound care specialists, surgeons, podiatrists, hyperbaric technicians, and wound care nurses who work together on a customized treatment plan. The wound clinic is located on the first floor of UPMC Jameson as part of the hospital's outpatient center.
