

Keeping Your Baby's Sex a Surprise

In your MyUPMC account, you can view the results of lab work and testing. **Some of these results may reveal the sex of your baby.**

If you do not wish to know your baby's sex, we recommend that you **do not click or access the results of the following tests:**

- **Qnatal**
- **MaterniT21 (Sequenom)**
- **Harmony**
- **FISH Karyotype**
- **Karyotype, Amniocentesis**
- **Karyotype, Chorionic Villus Sampling (CVS)**

If you have any questions or concerns, please let a member of your care team know.

Thank you for choosing UPMC.
