

A GUIDE TO

Your Hospital Stay

UPMC | SHADYSIDE

WELCOME LETTER FROM SANDY RADER, PRESIDENT

Welcome to UPMC Shadyside and thank you for trusting us with your care.

At UPMC Shadyside, we know that quality is more than state-of-the-art clinical services and advanced technology – quality is treating our patients with care and compassion, listening to their ideas, and using their feedback to improve our services. We also know that hospital stays can be stressful, so we have developed a few ways to help you feel as comfortable as possible.

During your stay, you can expect to be visited by a nurse leader, who manages all staff members on your unit. We call this **nurse leader rounding**. This visit will take less than 5 minutes and helps us be sure that your care needs are being met. You will also see our nurses doing **bedside shift report**, which is when the nurse going off duty meets with you, your support persons, and the nurse coming on duty who will start taking care of you. Please use these opportunities to ask questions and share any concerns or suggestions you may have.

You will also see a white board in your room called the **communication board**, which is a tool we use to help keep you updated on the important details of your care during your stay. This will list things such as your room number, diet, activities, upcoming tests, and the names of your care team members. Every day, we will also give you a printed document called **My Daily Plan of Care** that will list your scheduled procedures, tests and lab results, and medicines. We encourage you to share this care plan with your support persons.

Your feedback is important to us as it guides how we care for our patients. **Nurse leader rounds, bedside shift report, communication boards, and My Daily Plan of Care** are ways for you to tell us about your needs and share any concerns you may have about your care.

After you leave the hospital, **you may receive a survey through mail or email** that will ask you questions about your stay. I would like to personally request that you please take a few moments to complete this survey to let us know how we did. Your input is very important in our efforts to give our patients and support persons the best possible experience.

I want to personally thank you for choosing UPMC Shadyside and for your input so we can continuously improve the services we provide.

Sincerely,

Sandy Rader
President, UPMC Shadyside

TIPS FOR YOUR HEALTH AND SAFETY IN THE HOSPITAL

- **Review your care plan.** Each day you will receive a printed document called *My Daily Plan of Care*. It has information about your care in the hospital such as diet, tests, and laboratory results. Please ask your nurse if you do not receive the document.
- **Talk to your health care team.** Feel free to ask questions or have something explained if you do not understand. We encourage you to take notes and include your support persons to help you make important decisions.
- **Know your medicines.** Do not take any of your personal medicines unless your doctor or nurse tells you it is okay. You should give them to someone to hold for you. Before you leave, you should know the name of your medicines, the reason you need to take them, and possible side effects.
- **Control your pain.** We want you to be as comfortable as possible. Let us know as soon as you start to feel pain. If you get pain relief before the pain becomes bad, it takes less medicine to make you feel better.
- **Get your rest.** Rest is an important part of the healing process. Earplugs are available to help reduce noise. Please ask a member of your care team.
- **Prevent infections.** The most important step in preventing the spread of germs and infection is **handwashing**. When washing, rub your hands together vigorously. It's OK to ask anyone who enters your room if they have washed their hands! Try not to touch medical devices and minimize clutter in your room so surfaces can be cleaned.
- **Be a partner in your care.** Devices that go inside your body, such as a catheter in your bladder or an IV in your arm or neck, may be a source of infection if left in longer than necessary. It's OK to ask a care team member when they can be removed.
- **Be aware of fall risks.** There are many reasons people feel unsteady when getting out of bed or walking by themselves. As needed, ask for help before getting up. Non-slip socks are also available. Ask your nurse.
- **Stay active.** An important part of feeling better is getting out of bed and moving. Talk with your care team about safely getting out of bed.
- **Protect yourself and others by not smoking.** Smoking is not allowed on UPMC property. This includes hospitals, facilities, and grounds, including parking lots, garages, and other outdoor locations such as UPMC-owned sidewalks.

CONDITION HELP

Condition Help is a 24/7 patient safety hotline that patients and support persons can call when there is:

- An emergency when patients or support persons cannot get the attention of hospital staff
- A communication breakdown with the care team in how care is given
- Uncertainty over what needs to be done

To activate **Condition Help**, call **412-647-3131** and a rapid response team will be sent to your room.

SAFETY AND SECURITY

We want to keep all of our patients, support persons, and staff safe. Our Security Department is available 24 hours a day, 7 days a week. To contact Security, please call **412-623-2990**.

Patient Personal Property

Please leave personal property at home or with a support person. If that is not possible, please tell your nurse. UPMC is not responsible for any patient valuables or other personal property brought to the hospital. Do not bring in or use appliances that plug into wall outlets (fans, radios, televisions, heating pads, or blankets). Most battery-powered devices are allowed. Please check with your nurse.

Video and Photography

UPMC reserves the right to prohibit, for any reason, personal photography or video or audio recording by a patient, a patient's family member, or a patient's visitor. Photographing, filming, or recording another patient, or a UPMC staff member, without that person's consent is never permitted. Violations may result in confiscation of the photograph or recording, and/or requiring the person violating the policy to leave the UPMC hospital. Photographing or filming the birth of a baby may be permitted, subject to appropriate limitations, when all parties have given their consent.

Security Escort Service

Security escort services are available to walk you to your car after hours. If you want an escort, please call **412-623-2990**.

UPMC No Weapons Policy

UPMC does not allow weapons or illegal substances of any kind on its property, regardless of any permits you may have. UPMC reserves the right to search patient rooms and belongings, and to remove medicines or supplements not prescribed by your doctor, as well as weapons, illegal substances, or other items considered unsafe for the care environment.

Please read and follow all signs posted in the hospital about restrictions on the use of cell phones, computers, and other wireless devices.

Rx Express

You may be able to receive your prescribed medicines before you leave the hospital. Ask a care team member to learn more.

DISABILITIES RESOURCE CENTER

The UPMC Disabilities Resource Center (DRC) makes sure that health care is accessible to people with disabilities, including those who are deaf, hard of hearing, blind or have low vision, or those with mobility, speech, intellectual, cognitive, or behavioral disabilities. We offer accessibility, communication, and hearing assistance resources. Please let a staff member know of your needs.

Service Animals

Service animals as defined by the Americans with Disabilities Act are welcome in all public areas within UPMC facilities and your room. Animals must be housebroken and under the control of their owner. If the owner is unable to care for the animal during their stay or visit, another person must be designated to do so. UPMC staff are not required to care for service animals.

For more information, visit [UPMC.com/DRC](https://www.upmc.com/drc) or call **412-605-1483**.

SPIRITUAL CARE

Spiritual Care is available to persons of all faiths. We know that your faith can be a great source of healing and comfort during your stay. We offer spiritual support to patients and their support persons by identifying the spiritual and emotional needs of all who desire our services.

We are here to:

- Offer prayer, religious services, rituals, and sacraments
- Respond to crisis and emergency situations
- Assist patients and families to contact their clergy, spiritual advisor, or faith community
- Offer scripture and devotional items from different faith traditions

To place a request for Spiritual Care, please call **412-623-2121**.

PATIENT RELATIONS

Our Patient Relations coordinators are available to assist with any questions you may have about your care. If you are unable to resolve your concerns with your health care team, we can help. Please call **412-623-2014**.

PARKING VALIDATION

For parking validation, show the parking ticket at the information desk.

- Patients receive free parking on the day they leave the hospital.
- Patients who park in a UPMC garage are eligible for a flat parking rate for up to 24 hours.
- Support persons who park in a UPMC garage for 4 to 24 hours are eligible for a flat parking rate.
- On the 11th day of the patient's stay, 1 support person may receive a discount.

For more information, call **412-647-3194** or visit [UPMCShadyside.com/Parking](https://www.upmcshadyside.com/Parking).

YOUR CARE TEAM

Doctors (Including Fellows, Residents, Intensivists, and Hospitalists)

Doctors (MD or DO) diagnose, prescribe treatment, and are responsible for all aspects of patient care. They also supervise and train members of the care team. Doctors will consult with a specialist if needed.

Advanced Practice Providers (Nurse Practitioners and Physician Assistants)

Advanced practice providers may include nurse practitioners, physician assistants, and others who support the work of your doctors by helping them treat patients, perform procedures, and document your care. They may accompany your doctor or see you separately.

Nurse Leaders (Unit Directors and Clinicians)

Unit directors manage the unit and staff. Clinicians assist the manager with their responsibilities.

Registered Nurses and Licensed Practical Nurses (RNs and LPNs)

Nurses provide care while working closely with your doctor(s). Care includes your physical care as well as giving and teaching you about your medicines, illness or procedure, and what you need to go home and stay well.

Patient Care Technicians (PCTs) and Nursing Assistants (NAs)

Patient care technicians and nursing assistants provide your physical care. They help you to the bathroom, take your temperature, blood pressure, and pulse, draw blood, and provide other care that you may need.

Patient and Family Concierges (PFCs)

Patient and family concierges are here to help with non-clinical tasks during your stay. They will guide you and your support person(s), bring meals and snacks, make sure your room is in good condition, and help with transport at discharge.

VISITING INFORMATION

Visits from others are important for your recovery. We call visitors **support persons**, who have specific and important duties. The support person communicates with the care team, participates in bedside shift report, reviews the communication board, participates in discharge planning, and communicates to other family members and friends.

Support persons may include, but are not limited to, a spouse, domestic partner, family member, or friend. You can also change your mind about who you wish to visit you at any time.

Please ask a care team member about the current visiting hours and guidelines or go to the visitor information webpage at [UPMC.com/ShadysideVisitors](https://www.upmc.com/ShadysideVisitors).

Patient Identification Number (PIN)

To make sure we give you updates and information in an organized way, we ask that 1 support person be responsible for calling and receiving updates about the patient's condition. This person will be given a pin number that will be needed to get information about the patient. This helps protect patient privacy.
