UPMC policy prohibits discrimination or harassment on the basis of race, color, religion, ancestry, national origin, age, sex, genetics, sexual orientation, gender identity, marital status, familial status, disability, veteran status, or any other legally protected group status. Further, UPMC will continue to support and promote equal employment opportunity, human dignity, and racial, ethnic, and cultural diversity. This policy applies to admissions, employment, and access to and treatment in UPMC programs and activities. This commitment is made by UPMC in accordance with federal, state, and/or local laws and regulations.

## Struggling With Opioid Addiction?

### We can help.

Do you have a problem with opioids – such as with street drugs like heroin or prescription pain medications like oxycodone or Vicodin®?

Our Internal Medicine **Recovery Engagement Program** can help you on the path to recovery from problems with these substances by providing buprenorphine (Suboxone® or Sublocade®) or naltrexone (Vivitrol®) treatment, ongoing behavioral counseling, and peer support that you need.

## Internal Medicine Recovery Engagement Program

Helping you recover and  
live your healthiest life

## What is the Recovery Engagement Program?

The Recovery Engagement Program is a clinic located in UPMC Mercy Outpatient Health Center. Our program is for patients with any current or previous opioid use problem.

The clinic provides these services and more to help you:

- Full access to primary care services and physicians
- Face-to-face meeting with a Recovery Engagement Program team member within one business day of referral
- Comprehensive professional assessment
- Medications for Opioid Use Disorder (MOUD) including sub-lingual or injectable buprenorphine
- Hepatitis C treatment
- Behavioral health counseling
- Community-based social support and guidance from peer recovery specialists
- Social services support from licensed social workers

## Multidisciplinary Approach

While participating in the Recovery Engagement Program you will have access to a multidisciplinary team of professionals specially trained to help manage recovery efforts including:

- Physicians
- Counselors
- Peer Recovery Specialists
- Nurses
- Social Workers

The entire team works closely together, and shares information to assure the best plan of care for you.

## Eligibility

- Age 18 years of age or older
- A current or previous problem with opioid abuse
- Commitment to recovery and program engagement
- Self-referred or professionally referred

UPMC doctors and hospitals accept most major insurers, including Aetna, Cigna, Highmark, United Healthcare, and UPMC Health Plan.
