

UPMC Adult Spina Bifida Clinic

The only one of its kind in the region, the UPMC Adult Spina Bifida Clinic combines a variety of specialties to provide comprehensive, up-to-date care for adult patients. Our physical medicine and rehabilitation experts partner with urologists, neurosurgeons, and other specialty providers to provide coordinated care.

The UPMC Adult Spina Bifida Clinic provides coordinated care among several departments in an effort to create a successful patient experience. Our program is a collaborative effort among physical medicine and rehabilitation, neurosurgery, and urology. Learn more about what makes our program unique and effective.
